3. The following agreements were reached:

a. The SAC recommendation was bought by all consumers, subject to the stipulation that possible hostile intent/action toward peripheral flights be accorded the same high priority of overflights.

b. In reference to _____ priorities, the present arrangement was agreed to, except for the following changes:

- (1) The requirement for reporting on peripheral reconnaissance flights is put on the same plane as reporting on overflights.
- (2) The requirements agreed to be in lower priority for reporting were agreed to solely on the basis of the rapidity with which they would be reported. This in no way negated or downgraded the necessity for reporting such items as USSR participation/influence, indications of Russian departure, proficiency of Cuban/Russian Air Defense systems, transport activity in or out of Cuba, and the location and status of tactical aircraft in Cuba.

c. In reference to COMAD's proposal to move to NDAS, the Navy dissented, pointing out the need to keep the KJ-26 circuit into Base Chica for CINCFLANT aircraft. The Air Force explained that, by moving to NDAS, greater intercept capability could be brought to bear on any "mad dog" Cuban pilot who decides to attack the US, or to facilitate any potential defector aircraft's safe arrival in the U.S. It was pointed out that providing the type of reporting desired by COMAD would have an adverse effect on _____ capability to perform its mission for other consumers. DIA will advise NSA of the decision reached on the COMAD request. No further action is required by NSA at this time.
